

## NJEDGE.Net:

### New Jersey's Statewide Non-Profit Technology Consortium

NJEDGE.Net is a member-driven technology consortium that connects people and resources in the Education, Government and Industry sectors. With services, products, resources and support, NJEDGE.Net is building an active and vibrant community that embraces emerging technologies and enjoys cost savings from a consortium purchasing program.

#### Services

- Virtualization solutions including discounted VMware licensing costs
- Cloud, colocation and disaster recovery solutions
- High-speed broadband network service
- Video conferencing and streaming services
- Professional development workshops, training and events
- Member-driven activity groups – EDge.Networks
- NJVID – New Jersey's digital video repository
- Consortium co-operative purchasing

#### EDge.Networks Member Activity Groups

- **NJCIO Forum** works together to address broad-based statewide concerns and issues that have an impact on individual institutions.
- **Academic Technology Group** promotes the meaningful infusion of technology into education curricula.
- **Data Resources Group** collaborates on technology solutions in support of campus IT.
- **Video Resources Group** bring educators together to share expertise in applications of academic video and creation of original content.
- **K-20 Initiative** extends new technologies, applications and content to NJ's K12 districts, colleges and universities, and libraries and museums.
- **NJ Grid High Performance Computing Group** promotes and facilitates the use of advanced computing technologies and Big Data.

#### Community Events

- Annual Conference
- Faculty Best Practices Showcase
- Virtualization and Cloud Computing Seminars
- Summer Subscriber Luncheon

## **NJEDGE.Net:**

### **New Jersey's Statewide Non-Profit Technology Consortium**

Building upon the NJEDGE.Net foundation and leveraging our decade plus successes, your organization benefits from our key strategic initiatives.

#### **Broadband Access**

NJEDGE.Net built a high-speed network that leverages multiple Internet Service Providers, Academic Internet, Internet2 and last mile service providers to best meet your internet access needs.

#### **Virtualization**

NJEDGE.Net has an exclusive state and local government and education (SLED) contract that allows your institution to procure VMware at consortium-based discounts.

#### **Cloud, Colocation and Disaster Recovery Solutions**

We offer on- and off-net cloud, colocation and disaster recovery solutions.

#### **Video Conferencing and Live Streaming Services**

Our solution is built around Vidyo that brings video conferencing to your smartphone, desktop and tablet. Live streaming services are provided by NJVID.

#### **Consortium Purchasing Program**

The Consortium Purchasing Program gives NJEDGE members buying privileges that include voice/minutes, emergency notification system, software bundle, synchronous collaborative tools, last mile circuits and Internet.

## **But wait, there's more!**

We also support a folio of professional development, community-building programs, educational initiatives, consortium-buying schedules and our academic digital video repository.
